## Worship Team Training Music Lesson

### **Guitar Strumming Patterns** For the Rhythm Guitar Player

Explanation:

1. Learning to develop pulse and timing - individually and to the group
2. To creatively inspire new variations to freshen up your old/current songs

Purpose and Importance of the Rhythm Guitar Player:

1. Timing of strums to establish a solid pulse
2. Focus patterns to unify with the drummer (hi-hat and/or snare)
3. Project clarity in parts in sync with the other instruments
4. Practice with a click or metronome to develop the "inner clock"

Basic Guide for Patterns:

1. Play all strumming rhythms muted in one chord to get down the skeletal pattern.
2. Play all strumming rhythms open strings in one chord to establish comfortability.
3. Begin playing by using slower tempos to get the rhythms accurate.
4. Play as written - varying the combo between muted and open rhythms.
5. Gradually increase tempo to the song's original bpm.

## WTT FEATURE GUEST INTERVIEW

### **Tim Timmons: Worship Leading, Songwriting & Ministry**

Tim Timmons is a singer/songwriter and worship leader at Mariners Church in Irvine, Calif., where he and his family have served for the past 12 years. With Mariners as a home base, Tim has the privilege of traveling the country to lead worship and encourage others. He has had many of his songs published, and is involved in studio work, writing, recording, and producing music.

Seven years ago Tim was diagnosed with cancer, an extremely rare and incurable disease. As a result, the past few years have been “trying, forming, freeing, joyful, intense, and simplifying”. Still, Tim’s love for Jesus fuels his passion to point people to Him. He is very thankful his passion and his music allow him to “help people respond to all that God is with all that they are.” Tim and his wife, Hilary, have been married for 11 years and recently welcomed their beautiful daughter, Malia Hope, into their lives!
